Dose calculation/measurement/instrumentation
Bone densitometry

Radiotherapy physics
Photon therapy
Brachytherapy
Equipment/linear accelerators
Conformal therapy/multileaf/portal imaging
Radionuclide therapy
Treatment planning/dose computation
QA/protection
Dose measurement/calibration/instrumentation

Nuclear medicine
Radioisotope production/radiopharmaceuticals
In vitro measurements
QA/protection
Dosimetry/calibration/instrumentation

Magnetic resonance
Instrumentation/imaging
Spectroscopy

Novel techniques

RADIOTHERAPY AND ONCOLOGY

Clinical systems
Head and neck
Gynaecology
Genitourinary
Lung
Breast
Neuro-oncology
Sarcoma
Others

Clinical radiotherapy
External beam
3D treatment planning/normal tissue sparing
Conformal therapy/dose escalation
Brachytherapy
Toxicity and symptom management

Chemotherapy
Radiosensitization
Combined chemoradiation

Clinical management and audit

RADIOBIOLOGY

Biological basis of radiological protection
Carcinogenesis
In utero effects
Risk estimates
Occupational and medical exposures

Radiobiology as applied to radiotherapy
Early tissue effects
Dose rate

COMMENTARIES

EDITORIALS

BOOK REVIEWS

INFORMATION FOR AUTHORS

RADIODIAGNOSIS

Techniques/Subspecialties

Radiography

Image features of true positive and false negative cancers in screening mammograms, 13

Accident and Emergency and General Practitioner plain radiograph reporting by radiographers and radiologists: a quasi-randomized controlled trial (Short communication), 57

Viewing conditions for diagnostic images in three major Dublin hospitals: a comparison with WHO and CEC recommendations, 94

Investigation of dose reduction in neonatal radiography using specially designed phantoms and LiF:Mg,Cu,P TLDs, 232

Early MRI in the management of clinical scaphoid fracture, 296

Mucoepidermoid carcinoma in a patient with congenital agenesis of the left upper lobe (Case report), 339

A case of big bad bones (Case of the month), 503

Accuracy of radiographic assessment for the diagnosis of invasion depth in small invasive colorectal cancer, 611

Do radiologists' radiation-related opinions predict their fluoroscopy doses? (Short communication), 653

Imaging hyaline cartilage (Review article), 777

Pulmonary involvement in an adult male affected by type B Niemann-Pick disease (Case report), 838

Pulmonary lesions associated with Sjögren's syndrome: radiographic and CT findings, 880

Ultrasound

Conservative management of an arteriovenous fistula of the inferior epigastric artery (Case report), 135

Descending urethral ultrasound of the native and reconstructed urethra in patients with hypospadias (Short communication), 260

High resolution ultrasound assessment of the parotid gland (Pictorial review), 271

Interexamination variation of whole breast ultrasound, 328

Contrast enhancement patterns of hepatic tumours during the vascular phase using coded harmonic imaging and Levovist to differentiate hepatocellular carcinoma from other focal lesions, 385

The aurora sign: an ultrasonographic sign suggesting parenchymal lung disease, 437

Renal vein Doppler ultrasound of maternal kidneys in normal second and third trimester pregnancy, 444

The use of three-dimensional ultrasound for fetal gender determination in the first trimester, 448

Intrahepatic portosystemic venous shunt: diagnosis by colour/power Doppler imaging and three-dimensional ultrasound (Case report), 487

Pedunculated malignant peripheral nerve-sheath tumour of the diaphragm presenting as recurrent lung infection: ultrasound diagnosis (Case report), 574

Sonographic differentiation of invasive and intraductal carcinomas of the breast, 600

Age-related variation in quantitative ultrasound at the tibia and prevalence of osteoporosis in native Chinese women, 605

Visualization of prostate cancer using dynamic contrast-enhanced MRI: comparison with transrectal power Doppler ultrasound, 617

Obstructive jaundice in a case of portal hypertension (Case of the month), 667

Spontaneous rupture of the spleen: ultrasound patterns, diagnosis and follow-up, 704

Imaging hyaline cartilage (Review article), 777

Clinical agreement between automated and calculated ultrasound measurements of bladder volume (Short communication), 832

Power Doppler ultrasound of rheumatoid synovitis: quantification of therapeutic response, 875

MRI

High grade and non-high grade ductal carcinoma *in situ* on dynamic MR mammography: characteristic findings for signal increase and morphological pattern of enhancement, 3

CT findings in patients with familial Mediterranean fever during an acute abdominal attack, 22

Simultaneous mapping of blood volume and endothelial permeability surface area product in gliomas using iterative analysis of first-pass dynamic contrast enhanced MRI data, 39

Adenomyoma mimicking an aggressive uterine neoplasm on MRI (Case report), 66

Right upper quadrant pain (Case of the month), 77

The normal main pulmonary artery diameter (Correspondence), 79

Motor functional MRI for pre-operative and intraoperative neurosurgical guidance, 98

Spinal cord herniation into a mediastinal neurenteric cyst: CT and MRI findings (Case report), 132

A young man with a lump on the head (Case of the month), 145

Reproducibilty of quantitative dynamic contrastenhanced MRI in newly presenting glioma, 153

Paraffinoma in anterior abdominal wall mimicking liposarcoma (Case report), 264

Early MRI in the management of clinical scaphoid fracture, 296

MRI of chronic spinal cord injury (Pictorial review), 347

Tentorial schwannoma: a case report (Case report), 421

Could assessment of glioma methylene lipid resonance by *in vivo* ^{1}H-MRS be of clinical value, 459

MRI diagnosis of bilateral adrenal vein thrombosis (Case report), 566

A case of unilateral enophthalmos (Case of the month), 577

High intensity focused ultrasound: surgery of the future? (Review article), 590

Visualization of prostate cancer using dynamic contrast-enhanced MRI: comparison with transrectal power Doppler ultrasound, 617

High resolution MRI of the brain at 4.7 Tesla using fast spin echo imaging, 631

Myxopapillary ependymoma of the ischioanal fossa (Case report), 659

Use of serial proton magnetic resonance spectroscopy to differentiate low grade glioma from tumefactive plaque in a patient with multiple sclerosis (Case report), 662

Imaging of renal lesions: evaluation of fast MRI and helical CT, 696

Imaging hyaline cartilage (Review article), 777

Contrast-to-noise ratio of multiple slice spin lock technique: prospects for liver imaging, 788

Hepatic portal venous gas: transient radiographic finding associated with colchicine toxicity (Case report), 835

Nobel Prize recognizes decades of sustained development in MRI (Editorial), 849

Diffusion-weighted MRI and ADC mapping in FK506 neurotoxicity (Case report), 916

Gold—now you see it, now you don't (Correspondence), 923

CT

A method for the systematic selection of technique factors in paediatric CT, 51

Right upper quadrant pain (Case of the month), 77
Spinal cord herniation into a mediastinal neurenteric cyst: CT and MRI findings (Case report), 132
CT of a thickened-wall gall bladder (Pictorial review), 137
A young man with a lump on the head (Case of the month), 145
CT urography and virtual endoscopy: promising imaging modalities for urinary tract evaluation (Pictorial review), 199
Perfusion CT: a worthwhile enhancement? (Review article), 220
Paraffinoma in anterior abdominal wall mimicking liposarcoma (Case report), 264
CT-guided radiofrequency ablation of a bronchogenic carcinoma (Case report), 268
X-ray refraction effects: application to the imaging of biological tissues, 301
Mucoepidermoid carcinoma in a patient with congenital agenesis of the left upper lobe (Case report), 339
Squamous carcinoma in an oesophageal foregut cyst (Case report), 343
Pulmonary complications following bone marrow transplantation, 373
Radiation dose to the lens of eye and thyroid gland in paranasal sinus multislice CT (Short communication), 418
An unusual cause of tachycardia (Case of the month), 427
Effects of projective bone area size of the spine on bone density and the diagnosis of osteoporosis in healthy pre-menopausal women in China, 452
Developmental abnormalities of the great vessels of the thorax and their embryological basis (Pictorial review), 491
Multislice helical CT: the value of multiplanar image reconstruction in the assessment of the bronchi and small airways disease, 536
Idiopathic presacral retroperitoneal fibrosis: report of two cases (Case report), 570
A case of unilateral enophthalmos (Case of the month), 577
The effect of equipment set up on patient radiation dose in conventional and CT angiography of the renal arteries, 625
Necrotizing cervical lymphadenopathy caused by Kikuchi–Fujimoto disease (Case report), 656
Myxopapillary ependymoma of the ischioanal fossa (Case report), 659
Imaging of renal lesions: evaluation of fast MRI and helical CT, 696
Metastatic liposarcoma of the thyroid gland (Case report), 750
An incidental finding (Case of the month), 753
What needs to be done about reducing patient doses from CT? The North American approach (Commentary), 763
Virtual intra-arterial endoscopy (VIA) of the carotid artery based on helical CT data, 792
CT doses in children: a multicentre study, 803
Pulmonary involvement in an adult male affected by type B Niemann-Pick disease (Case report), 838
All that glistens isn't gold (so do be sure the surgeon's told!) (Case of the month), 841
State-of-the-art imaging of pancreatic neoplasms (Review article), 857
Small "indeterminate" lesions on CT of the liver: a follow-up study of stability, 866
Pulmonary lesions associated with Sjögren's syndrome: radiographic and CT findings, 880
Lower moiety pelvic-ureteric junction obstruction (PUJO) of the duplex kidney presenting with pyonephrosis in adults (Case report), 909
An unusual cause of respiratory symptoms in a toddler (Case of the month), 921

Interventional radiology

Balloon dilatation of anastomotic strictures secondary to surgical repair of oesophageal atresia, 26
Demonstration of renal arterial anatomy and tumour neovascularity for vascular mapping of renal cell carcinoma: the value of CO_2 angiography, 89
Time of day influences patient radiation exposure from percutaneous cardiac interventions (Short communication), 189
Percutaneous lung biopsies (Correspondence), 213
Training in radiological protection for interventionalists. Initial Spanish experience (Commentary), 217
CT-guided radiofrequency ablation of a bronchogenic carcinoma (Case report), 268
Radiation doses to the legs of radiologists performing interventional procedures: are they a cause for concern? 321
Deep venous thrombosis associated with protein C and/or S deficiency: management with catheter-directed thrombolysis, 380
Effective techniques for reduction of radiation dosage to patients undergoing invasive cardiac procedures, 406
Evaluation of magnetic resonance myelography in the investigation of cervical spondylotic radiculopathy, 525
A study on radiation doses and irradiated areas in cerebral embolisation, 546
Retrievable vena cava filter placement during treatment for deep venous thrombosis, 712
Patient dose values in a dedicated Greek cardiac centre, 726
Percutaneous pulmonary radiofrequency ablation: difficulty achieving complete ablations in big lung lesions (Short communication), 742

Angiography

Time of day influences patient radiation exposure from percutaneous cardiac interventions (Short communication), 189
Insertion of a covered stent for treatment of a popliteal artery pseudoaneurysm following total knee arthroplasty (Case report), 195
Developmental abnormalities of the great vessels of the thorax and their embryological basis (Pictorial review), 491
The effect of equipment set up on patient radiation dose in conventional and CT angiography of the renal arteries, 625
Percutaneous puncture and pre-operative cyanoacrylate obliteration of a traumatic false aneurysm of an angluar artery branch (Case report), 746
Virtual intra-arterial endoscopy (VIA) of the carotid artery based on helical CT data, 792

Nuclear medicine

Intraductal injection of the breast: a potential pitfall of radioisotope occult lesion localization (Case report), 425
Comparison between human pharmacokinetics and imaging properties of two conjugation methods for ^{99m}Tc-Annexin A5, 553
The effect of equipment set up on patient radiation dose in conventional and CT angiography of the renal arteries, 625

Patient effective dose of sentinel lymph node lymphoscintigraphy in breast cancer: a study using a female humanoid phantom and thermoluminescent dosemeters, 818

Paediatric radiology

A method for the systematic selection of technique factors in paediatric CT, 51
Investigation of dose reduction in neonatal radiography using specially designed phantoms and LiF:Mg,Cu,P TLDs, 232
Response evaluation criteria in solid tumours (RECIST): problems and need for modifications in paediatric oncology? (Commentary), 433
The effect of equipment set up on patient radiation dose in conventional and CT angiography of the renal arteries, 625
What needs to be done about reducing patient doses from CT? The North American approach Commentary), 763
Radiation doses to paediatric patients up to 5 years of age undergoing micturating cystourethrography examinations and its dependence on patient age: a Monte Carlo study, 812
Evaluation of the Commission of the European Communities quality criteria for the paediatric lateral spine, 885

Oncology

A young man with a lump on the head (Case of the month), 145
Percutaneous pulmonary radiofrequency ablation: difficulty achieving complete ablations in big lung lesions (Short communication), 742
Small "indeterminate" lesions on CT of the liver: a follow-up study of stability, 866

Breast

High grade and non-high grade ductal carcinoma *in situ* on dynamic MR mammography: characteristic find ings for signal increase and morphological pattern of enhancement, 3
Image features of true positive and false negative cancers in screening mammograms, 13
Diabetic mastopathy (Case report), 192
Interexamination variation of whole breast ultrasound, 328
Intraductal injection of the breast: a potential pitfall of radioisotope occult lesion localization (Case report), 425
Breast density: agreement of measures from film and digital image (Short communication), 561
Sonographic differentiation of invasive and intraductal carcinomas of the breast, 600
Patient effective dose of sentinel lymph node lymphoscintigraphy in breast cancer: a study using a female humanoid phantom and thermoluminescent dosemeters, 818

PET

PET in the follow-up of differentiated thyroid cancer (Review article), 690

Genitourinary tract

General urinary tract

Demonstration of renal arterial anatomy and tumour neovascularity for vascular mapping of renal cell carcinoma: the value of CO_2 angiography, 89
CT urography and virtual endoscopy: promising imaging modalities for urinary tract evaluation (Pictorial review), 199
Contrast media and the kidney: European Society of Urogenital Radiology (ESUR) Guidelines (Review article), 513
Ureteric obstruction and intravascular administration of contrast media: is there a risk? (Short communication), 564
Imaging of renal lesions: evaluation of fast MRI and helical CT, 696
Lower moiety pelvic-ureteric junction obstruction (PUJO) of the duplex kidney presenting with pyonephrosis in adults (Case report), 909

Paediatric urinary tract

Descending urethral ultrasound of the native and reconstructed urethra in patients with hypospadias (Short communication), 260
Radiation doses to paediatric patients up to 5 years of age undergoing micturating cystourethrography examinations and its dependence on patient age: a Monte Carlo study, 812
Clinical agreement between automated and calculated ultrasound measurements of bladder volume (Short communication), 832

Gynaecology

Adenomyoma mimicking an aggressive uterine neoplasm on MRI (Case report), 66

Obstetrics

Renal vein Doppler ultrasound of maternal kidneys in normal second and third trimester pregnancy, 444
The use of three-dimensional ultrasound for fetal gender determination in the first trimester, 448

Male genital system

Descending urethral ultrasound of the native and reconstructed urethra in patients with hypospadias (Short communication), 260
Visualization of prostate cancer using dynamic contrast-enhanced MRI: comparison with transrectal power Doppler ultrasound, 617

Central nervous system

Motor functional MRI for pre-operative and intraoperative neurosurgical guidance, 98
A young man with a lump on the head (Case of the month), 145
Reproducibilty of quantitative dynamic contrast-enhanced MRI in newly presenting glioma, 153
MRI of chronic spinal cord injury (Pictorial review), 347
Tentorial schwannoma: a case report (Case report), 421
Could assessment of glioma methylene lipid resonance by *in vivo* ^{1}H-MRS be of clinical value, 459
Evaluation of magnetic resonance myelography in the investigation of cervical spondylotic radiculopathy, 525
Red flags in patients presenting with headache: clinical indications for neuroimaging, 532
High resolution MRI of the brain at 4.7 Tesla using fast spin echo imaging, 631

Use of serial proton magnetic resonance spectroscopy to differentiate low grade glioma from tumefactive plaque in a patient with multiple sclerosis (Case report), 662

Head and neck

Orbits

A case of unilateral enophthalmos (Case of the month), 577

Dental

Measurement of dose–width product in panoramic dental radiology (Short communication), 129

Radiation dose to the lens of eye and thyroid gland in paranasal sinus multislice CT (Short communication), 418

Respiratory tract

Percutaneous lung biopsies (Correspondence), 213

CT-guided radiofrequency ablation of a bronchogenic carcinoma (Case report), 268

Effects of radiographic contrast media on the lung (Review article), 290

Mucoepidermoid carcinoma in a patient with congenital agenesis of the left upper lobe (Case report), 339

Pulmonary complications following bone marrow transplantation, 373

The aurora sign: an ultrasonographic sign suggesting parenchymal lung disease, 437

Multislice helical CT: the value of multiplanar image reconstruction in the assessment of the bronchi and small airways disease, 536

Pedunculated malignant peripheral nerve-sheath tumour of the diaphragm presenting as recurrent lung infection: ultrasound diagnosis (Case report), 574

Percutaneous pulmonary radiofrequency ablation: difficulty achieving complete ablations in big lung lesions (Short communication), 742

Pulmonary involvement in an adult male affected by type B Niemann-Pick disease (Case report), 838

Pulmonary lesions associated with Sjögren's syndrome: radiographic and CT findings, 880

Cardiovascular system

An unusual cause of tachycardia (Case of the month), 427

Acquired heart disease

Effective techniques for reduction of radiation dosage to patients undergoing invasive cardiac procedures, 406

Great vessels

Developmental abnormalities of the great vessels of the thorax and their embryological basis (Pictorial review), 491

The normal main pulmonary artery diameter (Correspondence), 79

Peripheral arterial system

Conservative management of an arteriovenous fistula of the inferior epigastric artery (Case report), 135

Insertion of a covered stent for treatment of a popliteal artery pseudoaneurysm following total knee arthroplasty (Case report), 195

Virtual intra-arterial endoscopy (VIA) of the carotid artery based on helical CT data, 792

Peripheral venous system

Deep venous thrombosis associated with protein C and/or S deficiency: management with catheter-directed thrombolysis, 380

Retrievable vena cava filter placement during treatment for deep venous thrombosis, 712

Lymphatic system

Necrotizing cervical lymphadenopathy caused by Kikuchi–Fujimoto disease (Case report), 656

Skeletal

A case of big bad bones (Case of the month), 503

Trauma

Early MRI in the management of clinical scaphoid fracture, 296

Gold—now you see it, now you don't (Correspondence), 923

Metabolic/endocrine

Age-related variation in quantitative ultrasound at the tibia and prevalence of osteoporosis in native Chinese women, 605

Haemipoetic

Pulmonary complications following bone marrow transplantation, 373

Spine

Percutaneous vertebroplasty: indications, contra-indications, and technique (Pictorial review), 69

Joints

Imaging hyaline cartilage (Review article), 777

Power Doppler ultrasound of rheumatoid synovitis: quantification of therapeutic response, 875

Bone densitometry

Evaluation of calcaneus bone densitometry against hip and spine for diagnosis of osteoporosis, 123

Effects of projective bone area size of the spine on bone density and the diagnosis of osteoporosis in healthy pre-menopausal women in China, 452

Evaluation of a device is not an evaluation of a measurement site, 755

Digestive system

Squamous carcinoma in an oesophageal foregut cyst (Case report), 343

Salivary glands

High resolution ultrasound assessment of the parotid gland (Pictorial review), 271

Pharynx/oesophagus

Balloon dilatation of anastomotic strictures secondary to surgical repair of oesophageal atresia, 26

Small intestine

CT findings in patients with familial Mediterranean fever during an acute abdominal attack, 22

Colon and rectum

Accuracy of radiographic assessment for the diagnosis of invasion depth in small invasive colorectal cancer, 611

Myxopapillary ependymoma of the ischioanal fossa (Case report), 659

Biliary

CT of a thickened-wall gall bladder (Pictorial review), 137

Liver

Right upper quadrant pain (Case of the month), 77

Contrast enhancement patterns of hepatic tumours during the vascular phase using coded harmonic maging and Levovist to differentiate hepatocellular carcinoma from other focal lesions, 385

Intrahepatic portosystemic venous shunt: diagnosis by colour/power Doppler imaging and three-dimensional ultrasound (Case report), 487

Obstructive jaundice in a case of portal hypertension (Case of the month), 667

Contrast-to-noise ratio of multiple slice spin lock technique: prospects for liver imaging, 788

Hepatic portal venous gas: transient radiographic finding associated with colchicine toxicity (Case report), 835

Small "indeterminate" lesions on CT of the liver: a follow-up study of stability, 866

Pancreas

State-of-the-art imaging of pancreatic neoplasms (Review article), 857

Soft tissues

Paraffinoma in anterior abdominal wall mimicking liposarcoma (Case report), 264

Spontaneous rupture of the spleen: ultrasound patterns, diagnosis and follow-up, 704

Endocrine system

Thyroid

PET in the follow-up of differentiated thyroid cancer (Review article), 690

Metastatic liposarcoma of the thyroid gland (Case report), 750

Adrenals

MRI diagnosis of bilateral adrenal vein thrombosis (Case report), 566

Mediastinum

Spinal cord herniation into a mediastinal neurenteric cyst: CT and MRI findings (Case report), 132

Contrast media

Stabilization of the hydrophilic sphere iobitridol (Correspondence), 147

Effects of radiographic contrast media on the lung (Review article), 290

Contrast enhancement patterns of hepatic tumours during the vascular phase using coded harmonic imaging and Levovist to differentiate hepatocellular carcinoma from other focal lesions, 385

Contrast media and the kidney: European Society of Urogenital Radiology (ESUR) Guidelines (Review article), 513

Ureteric obstruction and intravascular administration of contrast media: is there a risk? (Short communication), 564

Clinical audit and management

Accident and Emergency and General Practitioner plain radiograph reporting by radiographers and radiologists: a quasi-randomized controlled trial (Short communication), 57

The use of audit as a training aid: possible role within an IRMER training programme (Correspondence), 505

Picture archiving and communications systems: the users' view, 519

Red flags in patients presenting with headache: clinical indications for neuroimaging, 532

Do radiologists' radiation-related opinions predict their fluoroscopy doses? (Short communication), 653

PHYSICS AND TECHNOLOGY

Diagnostic radiology physics

CT

A method for the systematic selection of technique factors in paediatric CT, 51

Perfusion CT: a worthwhile enhancement? (Review article), 220

Radiation dose to the lens of eye and thyroid gland in paranasal sinus multislice CT (Short communication), 418

A contribution to the establishment of diagnostic reference levels in CT, 541

What needs to be done about reducing patient doses from CT? The North American approach (Commentary), 763

Variations in radiation dose between the same model of multislice CT scanner at different hospitals, 798

CT doses in children: a multicentre study, 803

Dental

Measurement of dose–width product in panoramic dental radiology (Short communication), 129

Mammography

Image features of true positive and false negative cancers in screening mammograms, 13

A study of mean glandular dose during diagnostic

mammography in Malaysia and some of the factors affecting it, 238
Analysis of benefit: risk ratio and mortality reduction for the UK Breast Screening Programme, 309
Dose reduction in full-field digital mammography: an anthropomorphic breast phantom study, 478
Breast density: agreement of measures from film and digital image (Short communication), 561

Image processing/perception/quality/image analysis

A method for the systematic selection of technique factors in paediatric CT, 51
Viewing conditions for diagnostic images in three major Dublin hospitals: a comparison with WHO and CEC recommendations, 94
A study and optimization of lumbar spine X-ray imaging systems, 177
X-ray refraction effects: application to the imaging of biological tissues, 301
Survey of posteroanterior chest radiography in The Netherlands: patient dose and image quality, 398
Use of a quality index in threshold contrast detail detection measurements in television fluoroscopy, 464
A practical approach to soft-copy display consistency for PC-based review workstations (Short communication), 648
Evaluation of the Commission of the European Communities quality criteria for the paediatric lateral spine, 885

PACS/image handling/3D

Picture archiving and communications systems: the users' view, 519
A practical approach to soft-copy display consistency for PC-based review workstations (Short communication), 648

QA/protection

Measurement of dose–width product in panoramic dental radiology (Short communication), 129
Training in radiological protection for interventionalists. Initial Spanish experience (Commentary), 217
Radiation doses to the legs of radiologists performing interventional procedures: are they a cause for concern?, 321
The UK National Patient Dose Database: now and in the future (Commentary), 361
The use of audit as a training aid: possible role within an IRMER training programme (Correspondence), 505
A practical approach to soft-copy display consistency for PC-based review workstations (Short communication), 648
A model for calculating shielding requirements in diagnostic X-ray facilities, 731

Dose calculation/measurement/instrumentation

Measurement of dose–width product in panoramic dental radiology (Short communication), 129
A study and optimization of lumbar spine X-ray imaging systems, 177
Time of day influences patient radiation exposure from percutaneous cardiac interventions (Short communication), 189
Investigation of dose reduction in neonatal radiography using specially designed phantoms and LiF:Mg,Cu,P TLDs, 232
A study of mean glandular dose during diagnostic mammography in Malaysia and some of the factors affecting it, 238
Analysis of benefit: risk ratio and mortality reduction for the UK Breast Screening Programme, 309
Practical aspects for the evaluation of skin doses in interventional cardiology using a new slow film (Short communication), 332
The UK National Patient Dose Database: now and in the future (Commentary), 361
Radiation doses for barium enema and barium meal examinations in Ireland: potential diagnostic reference levels, 393
Survey of posteroanterior chest radiography in The Netherlands: patient dose and image quality, 398
Radiation dose to the lens of eye and thyroid gland in paranasal sinus multislice CT (Short communication), 418
Factors influencing fluoroscopy time and dose–area product values during *ad hoc* one-vessel percutaneous coronary angioplasty, 473
A contribution to the establishment of diagnostic reference levels in CT, 541
A study on radiation doses and irradiated areas in cerebral embolisation, 546
The effect of equipment set up on patient radiation dose in conventional and CT angiography of the renal arteries, 625
Monte Carlo calculations for assessment of radiation dose to patients with congenital heart defects and to staff during cardiac catheterisations, 638
Do radiologists' radiation-related opinions predict their fluoroscopy doses? (Short communication), 653
Patient dose values in a dedicated Greek cardiac centre, 726
Variations in radiation dose between the same model of multislice CT scanner at different hospitals, 798
CT doses in children: a multicentre study, 803
Radiation doses to paediatric patients up to 5 years of age undergoing micturating cystourethrography examinations and its dependence on patient age: a Monte Carlo study, 812

Bone densitometry

Evaluation of calcaneus bone densitometry against hip and spine for diagnosis of osteoporosis, 123
Evaluation of a device is not an evaluation of a measurement site, 755

Radiotherapy physics

Photon therapy

Survey of tangential field planning and dose distribution in the UK: background to the introduction of the quality assurance programme for the START trial in early breast cancer, 254
A generic computer program for checking photon beam dose calculations (Short communication), 904

Brachytherapy

High dose rate ^{192}Ir afterloading brachytherapy for cancer of the vagina, 719
A comparison of polyacrylamide gels and radiochromic film for source measurements in intravascular brachytherapy, 824

Equipment/linear accelerators

Changing the culture in radiotherapy (Commentary), 587

Conformal therapy/multileaf/portal imaging

The physical basis of IMRT and inverse planning (Review article), 678

IMRT: delivery techniques and quality assurance (Review article), 766

Implementation of IMRT in the radiotherapy department (Review article), 850

Radionuclide therapy

A comparison of polyacrylamide gels and radiochromic film for source measurements in intravascular brachytherapy, 824

Treatment planning/dose computation

Commissioning and quality assurance of the Pinnacle^3 radiotherapy treatment planning system for external beam photons, 163

Survey of tangential field planning and dose distribution in the UK: background to the introduction of the quality assurance programme for the START trial in early breast cancer, 254

The physical basis of IMRT and inverse planning (Review article), 678

IMRT: delivery techniques and quality assurance (Review article), 766

A generic computer program for checking photon beam dose calculations (Short communication), 904

QA/protection

Survey of tangential field planning and dose distribution in the UK: background to the introduction of the quality assurance programme for the START trial in early breast cancer, 254

A generic computer program for checking photon beam dose calculations (Short communication), 904

Dose measurement/calibration/instrumentation

Commissioning and quality assurance of the Pinnacle^3 radiotherapy treatment planning system for external beam photons, 163

Nuclear medicine

Radioisotope production/radiopharmaceuticals

Comparison between human pharmacokinetics and imaging properties of two conjugation methods for ^{99m}Tc-Annexin A5, 553

***In vitro* measurements**

Quantitative assessment of the radiation hazards and risks in sentinel node procedures, 117

QA/protection

Quantitative assessment of the radiation hazards and risks in sentinel node procedures, 117

Dosimetry/calibration/instrumentation

Quantitative assessment of the radiation hazards and risks in sentinel node procedures, 117

Patient effective dose of sentinel lymph node lymphoscintigraphy in breast cancer: a study using a female humanoid phantom and thermoluminescent dosemeters, 818

Magnetic resonance

Instrumentation/imaging

Simultaneous mapping of blood volume and endothelial permeability surface area product in gliomas using iterative analysis of first-pass dynamic contrast enhanced MRI data, 39

Motor functional MRI for pre-operative and intraoperative neurosurgical guidance, 98

High resolution MRI of the brain at 4.7 Tesla using fast spin echo imaging, 631

Spectroscopy

Non-invasive study of human gall bladder bile *in vivo* using ^{1}H-MR spectroscopy (Short communication), 483

Use of serial proton magnetic resonance spectroscopy to differentiate low grade glioma from tumefactive plaque in a patient with multiple sclerosis (Case report), 662

Novel techniques

X-ray refraction effects: application to the imaging of biological tissues, 301

RADIOTHERAPY AND ONCOLOGY

Clinical systems

Head and neck

Iridium-192 implantation for T1 and T2a carcinoma of the tongue and floor of mouth: retrospective study of the results of treatment at the Royal Berkshire Hospital, 414

Definitive radiotherapy for extramedullary plasmacytomas of the head and neck, 738

Gynaecology

High dose rate ^{192}Ir afterloading brachytherapy for cancer of the vagina, 719

A retrospective study of bladder morbidity in patients receiving intracavitary brachytherapy as all or part of their treatment for cervix cancer, 897

Genitourinary

Comparative analyses of the dynamic properties of the rectum studied by cryo-sections of human cadavers and pelvic CT scans of patients, 104

Seed migration in prostate brachytherapy: a re-implant case report (Case report), 913

Lung

Calcification in coronary arteries quantified by CT scans correlated with tobacco consumption in patients with inoperable non-small cell lung cancer treated with three-dimensional radiotherapy, 891

Breast

Survey of tangential field planning and dose distribution in the UK: background to the introduction of the quality

assurance programme for the START trial in early breast cancer, 254

Neuro–oncology

Primitive neuroectodermal tumour in a 60-year-old man: case report and review of the literature (Case report), 62

Sarcoma

Unusual peritoneal spreading by metastatic osteosarcoma of the tibia (Case report), 337

Others

Skin dose and dose–area product values in patients undergoing intracoronary brachytherapy, 32

Clinical radiotherapy

External beam

Primitive neuroectodermal tumour in a 60-year-old man: case report and review of the literature (Case report), 62

Survey of tangential field planning and dose distribution in the UK: background to the introduction of the quality assurance programme for the START trial in early breast cancer, 254

Definitive radiotherapy for extramedullary plasmacytomas of the head and neck, 738

Calcification in coronary arteries quantified by CT scans correlated with tobacco consumption in patients with inoperable non-small cell lung cancer treated with three-dimensional radiotherapy, 891

3D treatment planning/normal tissue sparing

Comparative analyses of the dynamic properties of the rectum studied by cryo-sections of human cadavers and pelvic CT scans of patients, 104

IMRT: delivery techniques and quality assurance (Review article), 766

Conformal therapy/dose escalation

Comparative analyses of the dynamic properties of the rectum studied by cryo-sections of human cadavers and pelvic CT scans of patients, 104

The physical basis of IMRT and inverse planning (Review article), 678

IMRT: delivery techniques and quality assurance (Review article), 766

Implementation of IMRT in the radiotherapy department (Review article), 850

Brachytherapy

Skin dose and dose–area product values in patients undergoing intracoronary brachytherapy, 32

Iridium-192 implantation for T1 and T2a carcinoma of the tongue and floor of mouth: retrospective study of the results of treatment at the Royal Berkshire Hospital, 414

High dose rate ^{192}Ir afterloading brachytherapy for cancer of the vagina, 719

A retrospective study of bladder morbidity in patients receiving intracavitary brachytherapy as all or part of their treatment for cervix cancer, 897

Seed migration in prostate brachytherapy: a re-implant case report (Case report), 913

Toxicity and symptom management

Skin dose and dose–area product values in patients undergoing intracoronary brachytherapy, 32

Chemotherapy

Unusual peritoneal spreading by metastatic osteosarcoma of the tibia (Case report), 337

Clinical management and audit

Changing the culture in radiotherapy (Commentary), 587

Implementation of IMRT in the radiotherapy department (Review article), 850

RADIOBIOLOGY

Biological basis of radiological protection

Low dose radiation risks (Commentary), 674

Carcinogenesis

Mortality patterns in British and US radiologists: what can we really conclude? (Commentary), 1

Low dose radiation risks (Commentary), 674

***In utero* effects**

Radiosensitivity of the developing haemopoietic system in mammals and its adult consequences: animal studies (Review article), 366

Risk estimates

Low dose radiation risks (Commentary), 674

What needs to be done about reducing patient doses from CT? The North American approach (Commentary), 763

Occupational and medical exposures

Mortality patterns in British and US radiologists: what can we really conclude? (Commentary), 1

Quantitative assessment of the radiation hazards and risks in sentinel node procedures, 117

What needs to be done about reducing patient doses from CT? The North American approach (Commentary), 763

Radiobiology as applied to radiotherapy

Early tissue effects

Radiosensitivity of the developing haemopoietic system in mammals and its adult consequences: animal studies (Review article), 366

Dose rate

High dose rate ^{192}Ir afterloading brachytherapy for cancer of the vagina, 719

EDUCATION

Right upper quadrant pain (Case of the month), 77
A young man with a lump on the head (Case of the month), 145
A heart problem? (Case of the month), 211
Bilateral cemento-ossifying fibroma of the maxillary sinus (Case of the month), 279
A lump in the sole of the foot (Case of the month), 353
An unusual cause of tachycardia, 427
A case of big bad bones, 503
A case of unilateral enophthalmos, 577
Obstructive jaundice in a case of portal hypertension, 667
An incidental finding, 753
All that glistens isn't gold (so do be sure the surgeon's told!), 841
An unusual cause of respiratory symptoms in a toddler, 921

COMMENTARIES

Mortality patterns in British and US radiologists: what can we really conclude?, 1
Training in radiological protection for interventionalists. Initial Spanish experience, 217
Diffraction enhanced imaging, 289
The UK National Patient Dose Database: now and in the future, 361
Response evaluation criteria in solid tumours (RECIST): problems and need for modifications in paediatric oncology? 433
Changing the culture in radiotherapy, 587
Low dose radiation risks, 674
What needs to be done about reducing patient doses from CT? The North American approach, 763

EDITORIALS

Why do we need more accurate intraprostatic localization of cancer? 585
Intensity-modulated radiotherapy (IMRT): the most important advance in radiotherapy since the linear accelerator? 673
Future development of the Journal, 761
Nobel Prize recognizes decades of sustained development in MRI, 849

BOOK REVIEWS

Armstrong P and Wastie L. A concise textbook of radiology, 925
Atlas SW (Ed.), Magnetic resonance imaging of the brain and spine (3rd edn), Vols 1&2, 281
Avni F E (Ed.), Perinatal imaging. From ultrasound to MR imaging, 666
Bakal C W- et al (Eds), Vascular and interventional radiology. Principles and practice, 666
Becker H and Burns PN, Handbook of contrast echocardiography, 76
Becker W, Meller J, Zappel H, Leenen A and Seseke F, Imaging in paediatric urology, 580
Bruneton JN (Ed.), Applications of sonography in head and neck pathology, 210
Burgener FA, Meyers SP, Tan RK and Zaunbauer W, Differential diagnosis in magnetic resonance imaging, 144
Buthiau D and Khayat D, Virtual endoscopy, 507
Calder JF, The history of radiology in Scotland 1896–2000, 283
Canepa G, Maroteaux P and Pietrogrande V, Dysmorphic syndromes and constitutional diseases of the skeleton, Vols 1 plus CD-ROM), 507
Committee on Dosimetry for the Radiation Effects Research Foundation, et al, Status of the dosimetry for the radiation effects research foundation (DS 86), 579
Dahnert W, Radiology review manual (5th edn), 580
Davies A M and Cassar-Pullicino V N (Eds), Imaging of the knee. Techniques and applications, 579
Donnelly LF, O'Hara SM, Westra SJ and Blaser SI, Pocket radiologist: pediatrics. Top 100 diagnoses, 356
Donoghue V (Ed.), Radiological imaging of the neonatal chest, 844
Drevelegas A (Ed.), Imaging of brain tumors with histological correlations, 844
Dreyer KJ, Mehta A and Thrall JH (Eds), PACS. A guide to the digital revolution, 82
Duerinckx AJ (Ed.), Coronary magnetic resonance angiography, 76
El-Khoury G Y, Essentials of musculoskeletal imaging, 579
Federle MP, Fishman E, Jeffrey RB and Anne VS, Pocket radiologist. Abdominal. Top 100 diagnoses (and PDA version), 508
Goldstein SR and Benson CB (Eds), Imaging of the infertile couple, 278
